Trends in Fundraising

Topic: Leadership/Management (LM)

Philanthropy was a \$390 billion industry in 2016. Have presidential elections, natural disasters, and other zeitgeist shifts changed how we operate? Join a panel of CDOs, moderated by CCS's Brian Nevins, for a 30,000 foot discussion about effects of major world events on our industry. Using long-term and short-term data trends from Giving USA and both panelists and clients' experience, we will discuss pressing issues and encourage audience participation for a lively session.
