

Requirements of the Small Shop Discount

If your organization has an annual budget of less than \$5,000,000 then all of your organization's employees are eligible for the small shop discount which will be available starting on September 5th.

Between September 5 and September 30, the small shop rate will be \$375 per person -- equal to \$75 off the current "advanced" non-member rate. After September 30, the small shop rate will be \$475 per person -- equal to \$75 off the current "regular" non-member rate.

To get this reduced rate, small shop participants will need a code from the chapter staff. Please just confirm that your organization's annual budget is under \$5 million. Then, on the 5th of the month when the program is posted, we can generate a small shop code for you.
